

**Technical data**

Temperature range:	-30°C — +100°C (-22°F — +212°F)
Material coupling:	Steel (zinc-nickel)
Material nipple:	Hardened steel (zinc-nickel)
Material seal:	Nitril (NBR) alt. FPM
Connectability:	Part under pressure equipped with eliminator, other part free to drain.
Disconnection under pressure:	Not allowed
Max. working pressure connected:	280 bar (4061 PSI)
Max. working pressure disconnected:	200 bar (2900 PSI)
Min. burst pressure connected:	1000 bar (14503 PSI)
Min. burst pressure disconnected:	800 bar (11603 PSI)

Rated flow is measured at 0.4 MPa pressure drop.
